

## What People Are Saying About the Commitment of Traders Oscillator

"I tested all the different combinations and found that your method of futures only, all large contracts and net % had the best profit factor. I was really impressed because this tested better than Steve Brieze's method and he is known as "the" COT expert. **Your COT Oscillator is so simple, it's ingenious!**" Michael M.

**Disclaimer:** Futures and options trading have large potential rewards, but also large potential risk. You must be aware of the risks and be willing to accept them in order to invest in the futures and options markets. Don't trade with money you can't afford to lose. This is neither a solicitation nor an offer to buy or sell futures, stocks or options. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed here. The past performance of any trading system or methodology is not necessarily indicative of future results. If you decide to invest real money, all trading decisions should be your own.

**CFTC Required Disclaimer:** Hypothetical or simulated performance results have certain inherent limitations. Unlike an actual performance record, simulated results do not represent actual trading. Also, since the trades have not actually been executed, the results may have under- or over-compensated for the impact, if any, of certain market factors, such as lack of liquidity. Simulated trading programs in general are also subject to the fact that they are designed with the benefit of hindsight. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown.
